MEMORANDUM

TO: All Petroleum Engineering Freshmen
(PETL students who have not completed ENGR CBK)

FROM: Larry D. Piper, Freshmen Advisor 

SUBJECT: Preregistration for Summer/Fall 2009

This memorandum provides information and instructions concerning preregistration for:

- First Summer Session and 10-week Summer Term 2009
 - Preregistration March 23 – April 3
- Second Summer Session 2009
 - Preregistration March 23 – April 3
- Fall 2009 – Preregistration April 16- May 1

Petroleum Engineering students who are currently on scholastic probation and/or lower level (PETL) have been blocked, pending pre-registration advising (see list at Enclosure 1). The purpose of advising is to assist in the development of a valid degree plan independent of the summer/fall schedule. Your plan should be based on your catalog, which can be found by logging into <https://myrecord.tamu.edu/> and clicking on degree audit request.

Students on the enclosed Registration Block List must provide Dr. Piper [piper@pe.tamu.edu] with an updated degree plan and completed internship job survey form by e-mail as soon as possible (see list at Enclosure 1). Your degree plan should extend into the future at least 3 semesters (Summer 2009, Fall 2009 and Spring 2010 semester). You must include Summer 2009 and show work and/or school plans.

Students will be unblocked for pre-registration upon approval of their submitted degree plan and submission of a completed internship job survey form. Students needing to meet for advice on their degree plan may schedule an appointment with Dr. Piper [piper@pe.tamu.edu] beginning March 23, 2009 provided they have a completed the internship job survey form.
